

solver_run

```
graph LR; A[solver_run] --> B[sub_model_update_env_state]
```

The diagram consists of two rectangular boxes connected by a blue arrow. The first box on the left is white with a black border and contains the text 'solver_run'. A blue arrow points from the right side of this box to the left side of a second box. The second box is gray with a black border and contains the text 'sub_model_update_env_state'.
