

solver\_initialize

```
graph LR; A[solver_initialize] --> B[get_jac_init]; B --> C[rxn_update_ids];
```

A flowchart with three rectangular boxes arranged horizontally. The first box on the left is white with a black border and contains the text 'solver\_initialize'. A blue arrow points from its right side to the second box in the middle, which is also white with a black border and contains 'get\_jac\_init'. Another blue arrow points from the right side of the second box to the third box on the right, which is gray with a black border and contains 'rxn\_update\_ids'.
