

`solver_initialize`

```
graph LR; A[solver_initialize] --> B[error_handler];
```

The diagram consists of two rectangular boxes connected by a horizontal blue arrow. The left box is white with a black border and contains the text 'solver_initialize'. The right box is gray with a black border and contains the text 'error_handler'. The blue arrow points from the right side of the white box to the left side of the gray box.

`error_handler`
