

solver_run

```
graph LR; A[solver_run] --> B[rxn_update_env_state]; B --> C[rxn_emission_update_env_state];
```

A flowchart illustrating a three-step process. The first step is 'solver_run', followed by 'rxn_update_env_state', and finally 'rxn_emission_update_env_state'. Each step is contained within a rectangular box, and the steps are connected by blue arrows pointing from left to right. The final box is shaded gray, while the others are white.
