

`solver_initialize`

```
graph LR; A[solver_initialize] --> B[error_handler]
```

The diagram consists of two rectangular boxes connected by a horizontal blue arrow. The left box is white with a black border and contains the text `solver_initialize`. The right box is gray with a black border and contains the text `error_handler`. The blue arrow points from the right side of the first box to the left side of the second box.

`error_handler`
